TWO DIMENSIONS OF GROWTH

There are two dimensions of growth: the Personal and Transpersonal Dimension.

In the personal dimension of growth individuals strive after goals such as car, house, family, education, romance, finance, career etc.

In spite of all the outward signs of success, some individuals do not find their lives meaningful or satisfying at a deeper level. Reporting a vague sense of "something missing", they believe there must be more to life.

Ultimately only direct contact with the transpersonal dimension of growth can restore purpose and meaning to life.

Drawing on the methods and techniques of transpersonal psychology the workshop is designed to awaken you to the transpersonal or spiritual dimension of your life.
